

STREAMLIGHT™ STINGER®

Lightweight, powerful, safety-rated, rechargeable flashlight with durable aluminum construction that makes it virtually indestructible.

- Xenon gas-filled bi-pin bulb; spare bulb in tailcap
- Adjustable focus beam
- Up to 11,000 candela (peak beam intensity); 90 lumens
- 3-cell, 3.6 Volt Ni-Cd sub-C battery, rechargeable up to 1000 times
- 3-cell, 3.6 Volt Ni-MH sub-C battery, rechargeable up to 1000 times.
- Up to 1.25 hours continuous use
- 7.38"
- 10 oz.
- Assembled in USA

|--------------|-----------------------------------|----------------------|
| 75014 | Black | \$139.50 each |
| 75914 | Replacement Bulb | \$8.95 each |
| 76090 | Deluxe Nylon Holster | \$17.50 each |

STREAMLIGHT™ JR.® LED

Don't let the name "Junior" fool you. The Streamlight Jr.® LED lights may be lightweight and compact, but the light they produce is anything but small. C4® LED technology emits a blast of bright light with a far-reaching beam that you'd never expect from a flashlight this size. They run up to 4 continuous hours on two "AA" alkaline batteries.

- Powered by two "AA" alkaline batteries (included) or two "AA" lithium batteries.
- 1 watt C4® LED, 50,000-hr. LED
- Up to 3800 candela (peak beam intensity) and 85 lumens measured system output
- Runtime to the 10% output level:
- "AA" Alkaline Batteries – 4 Hours
- "AA" (L91) Lithium Batteries – 5.25 Hours (not included)
- Push button tail switch - momentary or constant on operation
- Shock-resistant / water-resistant
- Includes black nylon flapless holster
- 6.5" long
- 4.1 oz.

| | | |
|--------------|--------------------|---------------------|
| 71500 | Black | \$42.25 each |
|--------------|--------------------|---------------------|

STREAMLIGHT™ STYLUS PRO®

A sleek pen light that conveniently fits in your pocket. Ideal for anyone that needs a compact, durable light to carry on a daily basis.

- White C4® LED delivers 65 lumens; 690 candela; runs 6.5 hours
- Push button tail switch – momentary or constant on operation
- Includes two "AAA" alkaline batteries and tear-resistant nylon holster
- Type II MIL-SPEC abrasion and corrosion-resistant anodized aircraft aluminum construction with unbreakable, scratch-resistant polycarbonate lens
- IPX4 water-resistant
- About the size of a marker, it conveniently fits in your pocket and a removable pocket clip ensures it stays in place
- L x D: 5.3" x .6" (134 x 15 mm)
- 1.64 oz (46.9 g)

STREAMLIGHT™ STINGER DS® LED

This all-purpose flashlight is designed for the broadest range of lighting needs at the best value.

DUAL SWITCH TECHNOLOGY – Access three lighting modes and strobe via the tail cap or the head-mounted switch. Switches operate independently.

Three modes and strobe:

- > *High* for a bright super-bright beam - 350 lumens; 24,000 candela peak beam intensity; 310 meter beam distance; runs 2 hours
- > *Medium* for bright light and longer run times – 175 lumens; 12,000 candela peak beam intensity; 219 meter beam distance; runs 3.75 hours
- > *Low* for light without glare and extended run times – 85 lumens; 6,000 candela peak beam intensity; 155 meter beam distance; runs 7.25 hours
- > *Strobe* for disorienting or signaling your location; runs 5.5 hours

- Deep-dish parabolic reflector produces a concentrated beam with optimum peripheral illumination
- C4® LED technology, impervious to shock with a 50,000 hour lifetime
- Regulated run time provides consistent performance throughout battery life
- 3-cell, 3.6 Volt NiCd sub-C battery, rechargeable up to 1000 times.
- 3-cell, 3.6 Volt NiMH sub-C battery, rechargeable up to 1000 times.
- 10 hr. steady charge, 2.5 hr. fast charge, or PiggyBack charger options
- Machined aircraft aluminum body with non-slip rubberized comfort grip
- IPX4 water-resistant; 1 meter impact resistance tested
- Unbreakable polycarbonate lens with scratch-resistant coating
- Includes anti-roll rubber ring
- Length: 8.85" (22.48 cm); Weight: 12.8 oz (364 grams)
- Serialized for positive identification
- Limited lifetime warranty
- Assembled in USA

| | | |
|--------------|---|----------------------|

STREAMLIGHT FLASHLIGHTS

STREAMLIGHT™ SL-20LP®

Full-sized, full-feature polymer flashlight with C4® LED technology that delivers a 490 meter beam distance.

- Deep-dish parabolic reflector produces a tight beam with optimum peripheral illumination
- C4® LED technology, with a 50,000 hour lifetime
- Select high, medium, low or strobe modes with multi-function, push-button switch
- **4 modes:**
 - > *High* – 60,000 candela peak beam intensity, 350 Lumens, 2 hour runtime
 - > *Medium* – 27,000 candela peak beam intensity, 160 lumens, 4 hour runtime
 - > *Low* – 1,000 candela peak beam intensity, 10 lumens, 50 hour runtime
 - > *Strobe* – 4 hour runtime
- Illuminated switch housing shows charge status
- Optimized electronics provide regulated intensity throughout battery charge
- Lightweight, impact-resistant nylon polymer construction with non-slip rubber comfort grip
- NiMH battery rechargeable up to 1,000 times; fully recharges in 7 hours
- Fits SL series charger-holders
- IPX4/water resistant
- Unbreakable polycarbonate lens with scratch-resistant coating
- 2 meter impact resistance tested
- Serialized for positive identification
- 13.2" (33.5 cm)
- 1.3 lbs. (.59 kg)
- Limited Lifetime Warranty
- Assembled in USA

- 25213 Orange, 120V AC/DC – 2 Sleeves NiMH\$139.95 each
- 22052 Charging Sleeve (cord not included).....\$11.50 each
- 22311 AC Charge Cord.....\$18.50 each

STREAMLIGHT™ SL-20L®

Full-sized, full-feature aluminum flashlight with C4® LED technology that delivers a 490 meter beam!

- Deep-dish parabolic reflector produces a tight beam with optimum peripheral illumination
- C4® LED technology, with a 50,000 hour lifetime
- Select high, medium, low or strobe modes with multi-function, push-button switch
- **4 modes:**
 - > *High* – 60,000 candela peak beam intensity, 350 Lumens, 2 hour runtime
 - > *Medium* – 27,000 candela peak beam intensity, 160 lumens, 4 hour runtime
 - > *Low* – 1,000 candela peak beam intensity, 10 lumens, 50 hour runtime
 - > *Strobe* – 4 hour runtime
- Illuminated switch housing shows charge status
- Optimized electronics provide regulated intensity throughout battery charge
- NiMH battery rechargeable up to 1,000 times; fully recharges in 7 hours
- Fits SL series charger-holders
- Anodized machined aluminum construction with knurled barrel for a sure grip
- IPX4/water resistant.
- Unbreakable polycarbonate lens with scratch-resistant coating
- 2 meter impact resistance tested
- Serialized for positive identification
- 13.1" (33.3 cm)
- 1.7 lbs. (.77 kg)
- Limited Lifetime Warranty
- Assembled in USA

- 20703 Black, 120V AC/DC – 2 Sleeves NiMH\$172.25 each
- 22052 Charging Sleeve (cord not included).....\$11.50 each
- 22311 AC Charge Cord.....\$18.50 each

STREAMLIGHT™ STRION® LED

Compact, professional light designed for the broadest range of lighting needs at the best value. The Strion LED is now brighter at 260 lumens!

- Multi-function, push-button tactical tail switch lets you select three lighting modes and strobe
- **4 modes:**
 - > *High* for a bright super-bright beam - 260 lumens; 10,000 candela peak beam intensity; 200 meter beam distance; runs 2 hours
 - > *Medium* for bright light and longer run times – 130 lumens; 5,000 candela peak beam intensity; 141 meter beam distance; runs 4 hours
 - > *Low* for light without glare and extended run times – 65 lumens; 2,500 candela peak beam intensity; 100 meter beam distance; runs 7.5 hours
 - > *Strobe* for disorienting or signaling your location; runs 5.5 hours
- C4® LED technology, impervious to shock with a 50,000 hour lifetime
- Optimized electronics provides regulated intensity
- Lithium ion battery is rechargeable up to 1000 times; fully recharges in 3 hrs.
- Clamp style charger holder with digital control circuit that prevents over-charge; LED indicates charge status
- IPX4 water-resistant; 2 meter impact resistance tested
- 6000 series machined aircraft aluminum with anodized finish
- Borofloat high temperature glass lens
- Anti-roll head prevents the light from rolling away when you set it down
- Grooved barrel adapts to long gun mount
- 5.9" (14.99 cm); 5.2 oz. (148 grams)
- Serialized for positive identification
- Limited lifetime warranty

- 74302 Black, 120V AC/DC – 2 Holders\$172.50 each
- 22311 AC Charge Cord.....\$18.50 each
- 74102 Charging Cradle\$36.75 each

STREAMLIGHT™ STRION LED HL®

When you need maximum illumination with a wide beam to search a large area the Strion LED HL® rechargeable, high lumen flashlight provides a blast of 500 lumens with 200 meters of beam distance.

- Multi-function On/Off push-button tail switch lets you choose three lighting modes and strobe

• **4 modes:**

- > High for a super-bright beam - 500 lumens; 10,000 candela peak beam intensity; 200 meter beam distance; runs 1 hour
- > Medium for bright light and longer run times – 250 lumens; 5,000 candela peak beam intensity; 141 meter beam distance; runs 2 hours
- > Low for light without glare and extended run times – 125 lumens; 2,500 candela peak beam intensity; 100 meter beam distance; runs 3.5 hours
- > Strobe for disorienting or signaling your location; runs 2.5 hours

- C4® LED technology, impervious to shock with a 50,000 hour lifetime
- Lithium ion battery is rechargeable up to 1000 times; fully recharges in 3 hrs.
- Clamp style charger holder with digital control circuit that prevents over-charge; LED indicates charge status
- IPX4 water-resistant; 2 meter impact resistance tested
- 6000 series machined aircraft aluminum with anodized finish
- Borofloat high temperature glass lens
- Anti-roll head prevents the light from rolling away when you set it down
- Grooved barrel adapts to long gun mount
- 5.9" (14.99 cm); 5.2 oz. (148 grams)
- Serialized for positive identification

SELECTING A FLASHLIGHT: 101 (From opticsplanets.com)

Incandescent bulbs use a thin filament with current passing through it. The filament gets hot, and this excitement causes the filament to glow, making light. The sealed glass surrounding it prevents oxygen from corroding the filament. Gasses sealed in this glass like xenon and halogen increase the operating temperature of the filament, making the bulb brighter and keeping the interior glass cleaner. The life of the filament is also increased. Argon and Krypton are also used but are not as efficient for flashlights. These bulbs are generally not very durable or shockproof, but they do offer an extremely bright white light and are easily focused. They are the most powerful, have great performance and are a great choice for long distances, so if you're buying a light for situations where a lot of light is needed but it doesn't get rough, an incandescent flashlight may be the way to go.

LEDs - Light Emitting Diodes. LEDs have solid state construction and are extremely durable. Because of their long life (up to 100,000 hours) they do not require periodic replacement, which is great if you're looking to save money in the long run when selecting a flashlight. They have a soft, easy glow and are great for close viewing. They are generally not nearly as powerful as incandescents, but lower powered bulbs can have run times with hundreds of hours in some flashlights.

HIDs - High Intensity Discharge bulbs use a capsule of metal vapor instead of a filament. Many times brighter than standard incandescents, but require a ballast for current control. Bulbs last at least twice as long as incandescents and emit a very bright white light using less power.

Brightness - Candlepower or "peak beam candlepower" is the measurement of the brightest spot in a flashlight's beam, with focus not taken into consideration. A lumen is the measurement of all visible light. The best way to get an idea what amount of lumens or candlepower you need for your application is by viewing a light and finding out what the numbers are. When you get an idea what the numbers are for a couple lights you have seen, you'll get an idea of how much light you're going to want for your application. A keychain light might be one lumen. Some 2AA penlights with a single one watt LED lamp will offer about 45 lumens and run for over three hours. This is useable for most tasks from changing a car tire to preparing food at a campsite. This same light won't illuminate a raccoon twenty yards away very well, but if it had an incandescent bulb which is more focusable it certainly would. Drain on the battery would be significantly more though, decreasing run time. Brightness is very important when selecting a flashlight. If your light isn't bright enough you won't be happy with the purchase, so be sure to take a look at the various numbers, and pick an option that is bright enough for your needs.

FLASHLIGHTS

BAYCO NIGHTSTICK INTRINSICALLY SAFE FLASHLIGHT

This non-rechargeable Dual-Light™ Flashlight is cETLus, ATEX, IECEx and MSHA listed Intrinsically Safe. Permissible for use in both above and below ground hazardous locations where explosive gases and dusts may be present. It uses a CREE® LED rated at 120 lumens that works in conjunction with a high-efficiency deep parabolic reflector to create a usable flashlight beam rated at 170 meters. A 120 lumens unfocused floodlight is integrated into the housing which is perfect for close-up illumination. Additionally, both the flashlight and the floodlight can be turned on at the same time for maximum versatility. The dual body switches provide momentary or constant-on functionality for the flashlight and on/off functionality for the floodlight. Power comes from 3 AA premium batteries (not included).

XPP-5422G Bright Yellow \$35.00 each

RAYOVAC INDUSTRIAL GRADE 2D FLASHLIGHT

- Krypton bulb with a prismatic reflector and a shock absorbing spare bulb holder
- Includes a protected slide switch, consumer preferred comfort grip, and extra tough hanging ring
- Resists water, chemicals, oil, gas, and grease
- Runs on 2 D batteries (not included)
- Durable polypropylene construction withstands a 7 foot drop test and has a full lifetime warranty

IN2 Krypton Yellow\$7.50 each

RAYOVAC 2D UTILITY FLASHLIGHT

- Yellow
- 2D Cell
- Standard bulb
- Grooved for added grip
- Handy hanging lanyard

H-22\$2.69 each

NITEGUIDE 210 LED TORCH

At 210 lumens this light is 5 xs brighter than a traditional D-cell incandescent flashlight, and LED bulbs never need replacing. Focus Control shifts from 1X Flood to 4X Spot. Option of momentary or constant "ON" setting. Water and Impact Resistant. Aluminum housing is anodized for durability. Features knurled tail cap for secure handling. Uses 2 x 3V CR123A Lithium batteries.

2640050 \$49.95 each

PELICAN™ STEALTHLITE™ FLASHLIGHT

Stealthlite™ Flashlights are watertight to 500ft. Unbreakable ABS body with a hi-impact polycarbonate lens. Features Pelican's state of the art Laser Spot™ Xenon lamp module with an unsurpassed white collimated light beam. FM, CSA, UL, CE and MSHA approved non-incendive. Comes with one-handed safety switch operation, double shock mounted batteries.

2400C Yellow\$39.95 each

PELICAN SABRELITE™ FLASHLIGHT

This powerful flashlight was designed with one thing in mind: SAFETY. It carries more approvals than any other flashlight on the market today, making it safe for any hazardous environment or condition. The SabreLite is o-ring sealed with a twist-on shroud and comes with a polarity battery guard tray that safeguards against dangerous "outgassing" of hydrogen from an accidentally reversed cell. It is powered by 3 C alkaline cells, submersible, and has an ABS resin body which resists chemicals, corrosion, and extreme temperatures. Unlike ordinary flashlights that produce a yellow beam, the SabreLite's incredibly bright Xenon lamp produces a powerful collimated white beam. Pelican's SabreLite is the leader in quality and performance.

2000CYEL..... \$39.95 each

SAFETY WANDS

BAYCO SAFETY LIGHT COMBO KIT

- All LED construction
- Has both a tight-beam long-throw flashlight and a wide-angle two colored flashing safety light array
- Lighting modes: momentary and constant-on flashlight, full-power constant-on white floodlight, flashing amber safety light & dual-light (both the flashlight & floodlight or flashing safety light array at the same time)
- All LEDs have a 35,000 hour life
- Two button design top: flashlight, bottom: floodlight/safety light
- Light weight and durable
- Oval shape with textured body and soft-touch finish feels great in your hand
- Impact, chemical and moisture resistant
- Powered by 4 AA batteries (included)
- Kit includes one heavy weighted magnetic base and one red safety cone

NSP-1174-K01..... \$45.00 each

BRIGHT STAR® DIRECTOR FLASHLIGHT

Famous No. 2618 type flashlight with rugged high impact plastic case. Special lens ring allows wand to snap in or out as required. Fluorescent red wand standard. Features include: slide switch, Tufflex® lens, spare bulb.

2495 Yellow, w/Red Safety Cone \$45.99 each

RAYOVAC SAFETY WAND

W88 8" Red Wand\$14.95 each

2AAA MINI POCKET LIGHT

The perfect choice for a light to carry with you at all times. Fits on a key ring, hides in your pocket or clips to the brim of your hat (accessory clip & batteries included).

- 09005 Safety Yellow..... \$15.95 each
- 09007 Black..... \$15.95 each

UK4AA XENON FRONT SWITCH

The most versatile and powerful light for its size. This high intensity light with compact parallel battery configuration and twist on/off operation is fully accessorized. A necessity for confined space workers, municipalities, utility companies, safety inspectors, police and firefighters. Batteries included.

- 14026 Safety Yellow..... \$25.50 each
- 14027 Black..... \$25.50 each
- 14031A Orange..... \$25.50 each

UK4AA eLED ZOOM FRONT SWITCH

Firefighters and industrial workers all over the world trust UK's 4AA eLED® Zoom flashlight to get the job done. It can be easily attached to a hardhat or helmet for superior hands-free illumination. Unique zoom feature uses patented projection optics to create a consistent beam that can be focused from wide to narrow by twisting the bezel. Single high-intensity 2-watt LED lasts for thousands of hours and will not break when dropped. Unique eLED circuitry maintains constant brightness for 80% of alkaline battery life. Rubber sheath molded over bezel to reduce glare and improve impact resistance.

- 14502 Black..... \$48.99 each
- 14506 Safety Yellow..... \$48.99 each

UK3AA eLED CPO TAIL SWITCH

This flashlight features superior LED technology that is lightweight and affordable. It is the most compact light in its class, so it can go anywhere you go, via pocket, belt pouch, or helmet clip. It features an entirely waterproof design for all weather use. Push-button tail switch switches light between ON/OFF with continuous or momentary action. Beam produces a bright spot with almost no peripheral light so nearby personnel are not affected. Powered by 3AA / LR6 Alkaline cells. Crafted from high impact ABS, LEXAN® and polyurethane rubber for durability.

- 10001A Safety Yellow \$42.99 each

UK4AA eLED CPO TAIL SWITCH

The UK4AA eLED® CPO flashlight matches powerful performance with a sleek, compact design that can be operated with gloves. Its LED lamp is, long-lasting and provides a wide beam for superior illumination. Waterproof design for all weather use. Beam produces an ultra bright spot with almost no peripheral light so nearby personnel are not affected. Its life expectancy is well over 50,000 hours.

- 14431 Safety Yellow..... \$56.99 each

HEADLAMPS

PETZL® TIKKA® + HEADLAMP

Headlamp with CONSTANT LIGHTING technology for outdoor activities. 140 lumens maximum. The TIKKA + headlamp meets the need for versatility during outdoor activities: proximity lighting, lighting for travel, Boost mode for temporary access to maximum power of 140 lumens, red lighting and strobe mode usable at any time to signal one's presence. The headlamp features CONSTANT LIGHTING technology: brightness does not decrease gradually as the batteries are drained.

- Ambient mode: wide beam with reduced brightness, avoids blinding others in a group situation and provides a long burn time
- A mode adapted for close range vision: mixed beam with wide, uniform flood
- A mode adapted for movement: mixed beam with focused component allows user to move around comfortably
- Boost mode for temporary access to maximum power
- Red lighting for discreet close range vision
- Strobe mode for signaling one's presence, accessible at any time
- Burn time management allows user to easily anticipate battery replacement:
- Automatically switches to reserve mode when batteries are almost drained (signaled by blinking light)
- Red lighting switches on when batteries are practically empty to preserve maximum visibility
- By using Ni-MH or lithium batteries you can double the burn time while keeping the same brightness
- Push-button is easy to use, even with gloves
- Mixed fabric and elastic headband for improved comfort and support during dynamic activities
- Washable headband
- Battery case opens easily for changing batteries
- Beam pattern: mixed
- Energy: 3 AAA/LR03 batteries (included)
- Battery compatibility: rechargeable Ni-MH and lithium
- Certification(s): CE
- Watertightness: IP X4 (weather resistant)

E97HG Gray \$38.95 each

PETZL® ZIPKA® HEADLAMP

Ultra-compact headlamp for proximity lighting and some movement. 80 lumens maximum. The ZIPKA headlamp will accompany you wherever you go. Its exclusive retractable cord makes it extremely compact, practical to transport and versatile to wear. It offers comfortable proximity lighting that allows for some movement. Maximum brightness is 80 lumens over a distance of 50 meters. This headlamp has two lighting modes to adapt the brightness to each situation.

- Petzl's exclusive adjustable retractable cord
- Can be worn on the head, on the wrist or attached to a tent pole, a seat post...
- Proximity lighting mode: wide, comfortable beam for close-range vision
- Mode for limited movement: wide beam allows movement over short distances
- Push-button for easy, quick lighting mode selection
- Phosphorescent reflector allows the lamp to be located in the dark
- Battery case opens easily for changing batteries
- Beam pattern: wide
- Energy: 3 AAA/LR03 batteries (included)
- Battery compatibility: rechargeable Ni-MH
- Certification(s): CE
- Watertightness: IP X4 (weather resistant)

E93ZB Victoria Blue..... \$38.95 each

PETZL® TACTIKKA® + HEADLAMP

The TACTIKKA + headlamp is designed for activities where stealth is key. Its mixed beam is adapted to close-range vision and to moving around. Red lighting for stealth when necessary. Maximum brightness is 140 lumens over a distance of 60 meters. The headlamp features CONSTANT LIGHTING technology: brightness does not decrease gradually as the batteries are drained.

- Headlamp keeps the hands free
- Minimum 5 lm for 40 h
- A mode adapted for close range vision: mixed beam with wide, uniform flood
- Modes adapted for movement and rapid movement: mixed beam with focused component allows user to move around comfortably
- Boost mode for temporary access to maximum power
- Red lighting for discreet close range vision
- Strobe mode for signaling one's presence, accessible at any time
- Burn time management allows user to easily anticipate battery replacement:
- Automatically switches to reserve mode when batteries are almost drained (signaled by blinking light)
- Red lighting switches on when batteries are practically empty to preserve maximum visibility
- Push-button is easy to use, even with gloves
- Headband adjusts easily with buckle, for easy donning
- Washable headband
- Battery case opens easily for changing batteries
- Beam pattern: mixed
- Energy: 3 AAA/LR03 batteries (included)
- Battery compatibility: rechargeable Ni-MH and lithium
- Certification(s): CE
- Watertightness: IP X4 (weather resistant)

E89AHB-N Black \$43.95 each

HEADLAMPS

PETZL® PIXA® SERIES HEADLAMPS

The PIXA® series headlamp is rugged, versatile and adapt to any situation: close-range work, movement, and long-range vision. CONSTANT LIGHTING technology: brightness does not decrease gradually as the batteries are drained. Depending on the need, it may be worn on the head, mounted on the helmet, or placed on the ground.

- Several lighting modes adapt to each situation:
- Automatically switches to reserve mode when batteries are almost drained (signaled by blinking light and red indicator)
- Knob is easy to use, even with gloves on
- Storage position helps protect the headlamp lens and prevents inadvertently turning it on
- May be used in explosive atmospheres (ATEX: Zone 2/22)
- Excellent resistance to falls (2 m), impacts, and crushing (80 kg)
- Comfortable and washable elastic headband
- Resistant to chemicals
- Weight: 160 g
- Technology: CONSTANT LIGHTING
- Beam pattern: wide, mixed, focused
- Energy: 2 AA/LR06 batteries (included)
- Battery compatibility: rechargeable Ni-MH and lithium
- Multiple Certifications for each model
- Watertightness: IP 67 (waterproof to -1 meter for 30 minutes, no maintenance required after immersion)

PETZL® VERTEX® BEST HELMET

With its strong chinstrap, the VERTEX® BEST helmet sets the standard in head protection for workers at height. Its unventilated shell protects against electrical hazards and molten metal splash. Its six-point textile suspension ensures maximum comfort, and its CenterFit adjustment system adjusts the headband and keeps the helmet centered on the head. The VERTEX® BEST is designed for optimal attachment of a PIXA or ULTRA VARIO headlamp, a VIZIR, VIZIR SHADOW or VIZEN protective shield, and hearing protection. Other colors available.

NOTES

HEADLAMPS

BAYCO™ INTRINSICALLY SAFE HEADLAMP

This non-rechargeable dual-function headlamp is cETLus, ATEX and IECEx listed Intrinsically Safe for use in both above and below ground hazardous locations where explosive gases and dusts may be present. This headlamp features a multi-position tilt head design and includes an elastic head strap with a non-slip lining and a heavy-duty rubber head strap for use on a hard hat. The top mounted switch provides user selectable high or low brightness spotlight operation. Power comes from 3 AAA premium batteries (included).

- cETLus, ATEX and IECEx listed Intrinsically Safe for use in both above and below ground hazardous locations where explosive gases and dusts may be present
- CREE® LED technology – 50,000+ hours LED life
- High-brightness spotlight, low-brightness spotlight
- Focused spotlight beam for distance illumination
- Engineered polymer housing
- Single switch located on top of light
- Adjustable ratchet tilt head
- Non-slip elastic head strap
- Heavy-duty rubber strap for hard hat applications
- Waterproof
- Impact & chemical resistant
- Powered by 3 premium AAA alkaline batteries (included)

XPP-5452G \$32.95 each

3AAA eLED® VIZION™ I HEADLAMP

For superior hands-free illumination in every situation, count on the Vizion I. Hit it, freeze it, dunk it—it will keep on working. The Vizion I has all the features of the original Vizion and is available either with the traditional black woven band or a unique contoured rubber band designed specifically to firmly grip your helmet. The Vizion I is remarkably lightweight and waterproof for use in the most challenging climates and conditions. Safety certified for use in hazardous locations. Contains 3 selectable beam patterns - Spot, Diffuse and Red Diffuse. High and Low power settings. Large push button control switch works with heavy gloves. LED lamp module can be removed from mounting strap for use as a portable work light. Rotating beam angle adjustment knob, no hinge to break. High impact ABS, LEXAN® and molded rubber construction for durability.

17007 Safety Yellow..... \$37.25 each

MAXXEON WORKSTAR® 620 TECHNICIAN'S HEADLAMP

The MAXXEON WorkStar® 620 Technician's Headlamp is a high performance rechargeable LED light with an output of up to 800 lumens. It features a light head that not only pivots up and down, but has an adjustable 6X zoom lens allowing you to focus the beam on your work area. With the light at the front and the batteries at the rear, the weight is evenly distributed, making it easy to wear for extended periods of time. A single switch allows you to cycle through High/Medium/Low/Off.

- Rugged aluminum alloy casing
- 3 brightness levels: High, Medium, Low
- High: 800 lumens, 2 hour run time
- Medium: 400 lumens, 4 hour run time
- Low: 200 lumens, 8 hour run time
- Adjustable 6X zoom lens for flood or spot lighting
- Light head aims forward and pivots down
- 90 degrees with 4 indent positions
- Comfortable, adjustable head strap
- Evenly distributed weight balance
- Recharges without removing the batteries
- 4 hour charge time
- Includes UL-approved 100-240 VAC,
- 50/60 Hz world charger

MAXXEON 620..... \$38.95 each

BRUNTON GLACIER™ 69 HEADLAMP

Precision dimming mode lets you dial-in the exact power beam you're looking for and an advanced power management system ensures the lamp won't burn too high as the battery level starts getting low. On-board battery indicator clues you into how much you have left to burn. Ultra efficient green light mode keeps you unseen in the field and is easier on the eyes than standard red LEDs.

- Efficient and inconspicuous green light mode
- Dispersed reading light mode
- Power management system for maximal burn time
- Nichia LEDs
- 3 AAA batteries included
- On board battery level indicator
- 30 lumens, 69 foot beam on high
- International SOS flash
- Power lock-out mode prevents accidental power drain

GLACIER 69..... \$24.99 each

BRUNTON® GLACIER 115 HEADLAMP

USB RECHARGEABLE - Running out of batteries is more than just a bummer. In the dark places of the world, it can be dangerous. Luckily, the Glacier 115 headlamp is equipped with a USB port allowing you to juice-up rechargeable AAA batteries from a Brunton USB-based power pack or solar panel. Brunton® SyncTech enabled, charge renewable AAA batteries from Brunton® power packs or solar panels.

- Efficient and inconspicuous green light mode
- Dispersed reading light mode
- Power management system for max burn time
- Nichia LEDs
- 3 rechargeable AAA batteries included
- Can also use standard batteries
- On board battery level and charge indicator
- 50 lumens, 115 foot beam on high
- International SOS flash
- Power lock-out mode prevents accidental power drain

GLACIER115..... \$49.99 each

COAST™ HL6 LED HEADLAMP

The Coast HL6 is a great all around use LED headlamp. It produces a Bulls Eye spot beam pattern giving you a great focused spot with a maximum beam distance of 119 meters (390 feet), while producing an outer ring of flood light which allows you to see a broader area for added side vision. A handy dimming function allows you to adjust your light output to just the right level for your application. For added durability, an expandable Z-Cord provides power to the LED from the battery pack and is built in to the headband to reduce the possibility of snagging. Tested and rated to ANSI/FL1 standards, the HL6 features an unbreakable LED and is impact and water resistant. Backed by Coast's lifetime warranty against defects in materials and workmanship.

- 285 lumen light output
 - 1 hour 30 minute runtime
 - 119 meter (390 ft) beam distance
 - 3 X AAA batteries (included)
 - Z Cord in headband for added durability
 - Adjustable elastic straps
 - Easy to operate front power switch
 - Impact and water resistant
 - Hinged beam adjustment to position light where you need it
 - Weight: 4.2 ounces (including batteries)
- 7468\$34.95 each**

COAST™ HL27 LED HEADLAMP

Incredibly versatile and easy to use, the HL27 Focusing Headlamp has a light output of 330 lumens making it excellent for a variety of uses where you might need a lot of light. It has a removable top strap and can be used with a HARD HAT style safety helmet using the included helmet clips. The easy-to-grip twist focusing ring makes it easy to adjust the beam from flood to spot, even while wearing gloves. Our Pure Beam Focusing Optic produces our largest, Ultra-View Flood Beam, giving you the ability to shed light on a big area while the Bulls-Eye Spot Beam can illuminate targets as far as 129 meters (423 feet) away while still giving you an enhanced field of vision with its transition halo. The patent-pending headlamp light-control system uses Coast's Light Output Control Wheel and a fully encased sensor that detects a magnetic field, making the light output control more durable and weatherproof. For added durability, an expandable Z-Cord provides power to the LED from the battery pack and is built in to the headband to reduce the possibility of snagging. Backed by Coast's lifetime warranty against defects in materials and workmanship. Tested and rated to ANSI/FL1 standards by an independent laboratory.

- Pure Beam Focusing Optic
 - Twist focus
 - 330 lumen light output
 - 8 hour 45 minute runtime
 - 129 meter (423 ft) beam distance
 - Removable top strap
 - 3 X AA batteries (included)
 - Expandable Z Cord in headband for added durability
 - Adjustable elastic straps
 - Easy to operate front power switch
 - Hinged beam adjustment to position light where you need it
 - Impact and water resistant
 - Weight: 7 oz. / 199 g (including batteries)
- 19722\$59.95 each**

BRINKMANN/Q-BEAM SPOTLIGHTS

MAX MILLION II RECHARGEABLE SPOTLIGHT 2,000,000 Candlepower

Powerful rechargeable spotlight provides cordless operation for portability. The 12-volt rechargeable battery has a "quick-charge" feature reducing charge time by 50% and an LED light that turns off when fully charged. 120-volt AC charger operates from a wall outlet to charge battery in or out of spotlight. 12-volt DC charger/adaptor operates from a cigarette lighter receptacle or battery pack to charge battery in spotlight or provide continuous corded operation once the battery is drained.

Features include:

- Quick-release tabs for easy battery removal and replacement
- Trigger switch
- Locking ON button
- Rubberized pistol grip
- Metal bracket for hanging or storage
- ABS plastic housing
- Super bright halogen bulb

- 800-2655-2 Spotlight\$59.75 each
- 802-2655-0 Replacement Battery, Horizontal\$18.95 each
- 802-1747-0 Replacement Bulb\$15.95 each
- 802-0018-0 120V AC Charger\$11.95 each
- 802-0019-0 Rechargeable DC Lighter Plug\$8.95 each

MAX MILLION III RECHARGEABLE SPOTLIGHT

Keep the Brinkmann Max Million III Rechargeable Spotlight handy for emergency situations, camping, or any other outdoor adventure. This high-intensity spotlight delivers 3 million candlepower of bright light. Conveniently change from a wide-angle floodlight beam to a spotlight focused beam. This cordless rechargeable spotlight is made from durable ABS plastic and a tempered glass lens.

- 800-2380-0\$59.75 each

LEGEND 3D FLASHLIGHT

The Brinkmann Legend is constructed of machined, aircraft-grade aluminum with durable anodized finish. It has a krypton bulb for maximum brightness and comes with a push button ON/OFF switch. It goes from a spot-to-flood with the twist of the top and you are able to remove the head and use it as an area light. It is shock and water resistant and includes an extra bulb in the tail cap. Batteries not included.

- 863-0500-0 \$24.95 each

LEGEND 4D FLASHLIGHT

This Brinkmann 4D Legend flashlight is constructed of machined, aircraft-grade aluminum with tough anodized finish. It comes with O rings throughout for water and shock resistance. It features push-button On/Off switch and comes equipped with a Krypton bulb for maximum brightness.

- 863-0600-0 \$27.95 each

MAX MILLION III 12-VOLT SPOTLIGHT

Powerful 3 million candle power, 12-volt handheld spotlight produces a super high-intensity beam.

Max III features a powerful halogen bulb for maximum brightness, tough ABS plastic construction and an easy access On-Off sliding switch. It's tempered glass lens, rubber gasket lens seal for water and shock resistance and convenient metal bracket for hanging or storage makes this spotlight perfect for auto and boat storage. Comes with a heavy gauge 8 foot coiled cord and 12VDC plug with LED indicator light. Also includes a handy carrying case.

- 800-2301-0\$33.95 each
- 802-2655-3 12V Vertical Battery\$18.95 each

Q-BEAM 3 LED LITHIUM RECHARGEABLE SPOTLIGHT

Spot anything, anywhere, anytime with the Brinkmann Q-Beam Spotlight. A powerful high quality bright white LED provides targeted spot lighting, and the no slip rubber grip makes for easy handling. Great for camping, home security, or any other outdoor night activity

Every aspect of the GOLIGHT™ is designed for durability and strength. The highest quality UV materials are implemented into the crack resistant casing to protect them from cracking, warping and discoloration. The vital mechanism of each GOLIGHT™ product is sealed from exposure to rain, snow, and dirt - ensuring that your GOLIGHT™ is ready to weather any storm you can take it through!

LANTERNS

EUREKA® MAGIC 125 LANTERN

The size of a candle lantern; but much safer, this light provides 125 lumens of area lighting. Rotate the side knob and the light is directed forward for use as a flashlight.

- Bright lantern for area lighting quickly transforms to powerful directional flashlight by rotating top-mounted LED housing
- Rippled convex reflector cone disperses light into smooth pattern in lantern mode
- Textured opaque lens directs light in flashlight mode
- Multi-function off, high, low, hold for strobe, push-button switch
- Green LED locater light flashes every 5 seconds
- Swiveling wire hanging loop in bottom of unit
- Aluminum housing with anodized finish for durability
- Carry strap and carabiner-style clip included
- 4 AA DURACELL® batteries included

2640010 \$39.95 each

EUREKA® GLIDE 115 LANTERN/FLASHLIGHT

This versatile LED can hang as a lantern, or collapsed, works as a flashlight to brighten your path. 1 watt (51 lumens) of light, twice the brightness of similar lanterns!

- Telescopic expanding housing enables transformation from flashlight to area lantern
- Collimator efficiently creates a focused penetrating square flashlight beam
- Lever-style on/off switch in base
- Polymer C-hook in base for hanging
- Aluminum housing with anodized finish for durability
- Carry strap and carabiner-style clip included
- 3 AAA DURACELL® batteries included

2640020 \$29.95 each

EUREKA® WARRIOR 230 LANTERN W/REMOTE CONTROL

This versatile and multi-function lantern uses a remote to turn the lantern on or off from 25 feet away, or use the remote as a stand-alone flashlight! Remote has its own LED for use as a flashlight. Green color is easy to find!

- 2 Days continuous use on High
- Manual or infrared remote control operation
 - Blue LED indicator for IR stand-by mode
 - Remote Control has built-in personal light
 - Operating range of 26.25 ft. (8m)
- Bright white area lighting
- Removing the diffuser globe spreads soft area light even further
- SOS (Morse Code) flash mode
- Dimming control adjusts power from 100% - 10%
- Rubberized carry handle
- Rugged ABS housing with rubber grip accents
- Hang hook recessed into the Lantern base
- Carabiner clip
- 3 D-Size Batteries, not included
- Remote: 2 AAA-Size Batteries included

2640045 \$59.95 each
